PROFILE

Software Engineer with a predicted First-Class BSc (Hons) in Software Engineering and over two years' commercial experience delivering full-stack solutions across web, mobile, and cloud platforms. Most recently at C365Cloud, built .NET (Blazor) platform features, administered Microsoft SQL Server and MySQL databases, and strengthened CI/CD and operational reliability; previously delivered measurable impact at Unisys, including a 20% improvement in system efficiency and a 30% reduction in production issues. Experienced in agile, cross-functional teams, translating requirements into robust, maintainable code. Currently a Concierge Team Leader, where I implemented a Microsoft Teams shift-management tool unifying rotas across eight sites. Now seeking a software engineering role where I can contribute quickly and add value across the full development lifecycle.

TECHNICAL SKILLS

Languages

C# | Java | JavaScript (ES6+) | TypeScript | SQL (T-SQL) | Python | HTML5 | CSS3

Frameworks & Libraries

.NET (Blazor) | .NET MAUI | Node.js | Express.js | React | Next.js | Vue.js | Angular.js | Tailwind CSS | Three.js

Cloud & DevOps

Azure DevOps | GitHub Actions | CI/CD Pipelines | AWS (EC2, Lambda) | Git / GitHub | Linux (Ubuntu) | DevOps Automation

Databases

Microsoft SQL Server | MySQL | PostgreSQL | Prisma ORM | SQLite | Database Integration

Testing & Quality

NUnit | JUnit | Unit Testing | Integration Testing | System Testing

Tools

Visual Studio | VS Code | Jira | Postman | Tomcat | Photoshop

Practices & Methods

Software Design & Architecture | UML | REST APIs | Agile Delivery | UX Design | Project Management

Academic exposure: Prolog, Haskell, C++, Go, Rust, MIPS Assembly.

EXPERIENCE

DevOps Engineer

FEB 2026 – MAY 2026

C365Cloud • Wakefield, UK

- Supported CI/CD pipelines and operational workflows across the C365Cloud compliance platform, improving deployment consistency, monitoring, and day-to-day reliability for internal teams.
- Administered MySQL and Microsoft SQL Server databases (T-SQL), supporting data-capture forms, dashboards, and backend processors with clear documentation and secure, auditable processes.
- Delivered platform enhancements alongside developers and sysadmins – including .NET (Blazor) web features and mobile app support – while troubleshooting issues and removing workflow bottlenecks.

Software Engineer (Industrial Placement)

APR 2023 – JUL 2024

Unisys • Manchester, UK

- Improved system efficiency by 20% by designing, building, and deploying full-stack features in C#, .NET (Blazor), and SQL – including performance-focused backend logic, optimised queries, and clean UI workflows for internal users.
- Reduced production issues by 30% by owning technical support and troubleshooting: triaging incidents, analysing logs and root causes, implementing permanent fixes, and improving handover documentation to prevent repeat faults.
- Coordinated cross-team delivery through Jira and Azure DevOps boards – writing clear user stories and acceptance criteria, running stand-ups, and providing weekly stakeholder updates to keep engineering work unblocked.

PROJECTS

- **AfaaqX** (2025) IN DEVELOPMENT Full-stack web application using Next.js (TypeScript), Node.js, Express.js, PostgreSQL (Prisma ORM), and Tailwind CSS.
- **NutriTimer** (2025). Cross-platform mobile app in .NET MAUI with hydration tracking, meal reminders, text-to-speech, and SQLite persistence.
- **Contacts Web App on AWS** (2024). Java web application deployed on AWS EC2 with Tomcat and MySQL, using AWS Lambda for serverless functions.
- **ArticleServer** (2023) IN DEVELOPMENT Full-stack blogging platform using Node.js, Express, Vue.js, and SQLite, exposing a RESTful API with front-end user management.

EDUCATION

BSc (Hons) Software Engineering — Predicted: First Class Honours

SEP 2021 – PRESENT

Manchester Metropolitan University • Manchester, UK

Key modules:

- **Thematic Project (87%)** – recipe-based web application (JavaScript, Node.js, Express.js, SQLite).
- **Full Stack Web Development (85%)** – ArticleServer, a blogging platform with article management, user authentication, and comments (Vue.js, Node.js, Express.js, SQLite, RESTful APIs).

Accreditations & affiliations:

BCS Accredited Degree · BCS Educational Affiliate · Chartered Institute of Information Security · CompTIA · Institute of Coding

BTEC Level 3 Extended Diploma in IT (QCF)

SEP 2017 – JUN 2021

Bolton College • Bolton, UK

Triple Distinction (DDD) · GCSEs: Mathematics & English (Grade 4)

ADDITIONAL EXPERIENCE

Concierge Team Leader

OCT 2026 – PRESENT

Adullam Homes Housing Association • Bolton, UK

- Implemented a Microsoft Teams shift-management tool unifying two organisations' rotas and notifying staff of open shifts.
- Lead three teams across eight sites; act as regional hiring manager, shortlisting and running two-stage interviews.

Security Officer

MAY 2026 – PRESENT

Constant Security Services • Bolton, UK

- Provide mobile patrols, CCTV monitoring, and emergency response across four major sites, liaising with control rooms.
